To remove dirt, sediment and particulate in water

### We provides...

- FRP / Stainless steel vessel
- Ultra violet light and corrosion resistant vessel
- Pressure checker

### Easy Operations & Maintenance

### Specification

	FRP (Fiberglass Reinforced Polyester)	Stainless Steel
Diameter	9"	10"
Overall height	49"	45"
Operation	3 ways multi port valve	3 ways multi port valve
Max working pressure	150psi	150psi
Max working temperature	120°F	120°F
Valve size	2.5"	2.5"
Vessel Size	9" x 42"	10" x 41"
Flowrate	800-1800lit/hr	800-2000 lit/hr
